

EPIC

My name is Metal Rock and I am 18, and I was born in New York. I live with my dad and my brother.

I like to hunt and fish because it is much easier than just wasting money buying food from a shop.

I'm mostly into rock music because I just like rock and I enjoy listening to bands like ACDC.

I am currently in a rock band. The band's name is 'Epic' as we all agreed it's a good name. We had a different name but Epic was better. I play the drums because I just like to bash things and I have good sense of rhythm. Our band met inside a hotel in Tokyo. I hope that we become really famous one day, and I do hope it will be a good life.
