

ALLI'S BIOGRAPHY

My name is Alli and I am the lead singer in the band Explosion along with my twin sister A.J. I am 18 years old and I live in L.A. in the USA. My mum is 36 years old and my dad is 38. Last but not least, my sister is 18, but she is one minuted older than me.

My hobbies and interests are singing,dancing and acting. My musical interests come from Pixie Lott, Paramore, Katy Perry and Rhianna to name but a few.

The band met when I was at school and we all joined a Glee club which was run during lunchtimes. We all thought we had really good talents so we decided to get together and work on our vocals and our instruments and eventually we formed a band.

My band members all have amazing talents. J.J is an amazing drummer and guitarist and Ruby is really good at the keyboard. My sister A.J is a very talented singer too. I really think that our band is very different from most because of the different styles that have been brought together to create an infusion of musical and fashion tastes. J.J is very good at break dancing and A.J is very stylish and pretty. Ruby is very different from most of us because her style is really natural like mine but a bit different way because of the colours and materials chosen. My style is natural and not very colourful because I like darker colours than my band members. We are all unique.

I am really looking forward to the future with my band members and hopefully we will be much more successful in the future. My hopes for the future of Explosion is to release a single or top 10 album, also to also to design some clothes such as tops and t shirts and I would also like to perform some concerts and gigs and maybe even one day make a movie. At the moment we are just about to launch our world tour in Australia.
