

## Biography

My name is AJ, I am 18 years old and I am the lead singer in the band Explosion. I have a twin sister called Aili but we are not identical, she is also the lead singer in the band. My mum is 36 and she is called Joanne. My Dad is 38 and he is called Robert. We live in L.A in a big mansion that my dad built, as he is a builder and an interior designer. Aili and I were born on the 21st of May 1992.

In my spare time I enjoy doing many things such as dancing, shopping, acting and singing. I used to go to a professional dance school but quit to take up singing lessons. My musical influences are Rihanna, Katy Perry, Elle Goulding and of course Pixie Lott and Kesha.

Explosion consists of four members, me, my sister, Aili, JJ and last but not least Ruby Ramone. JJ plays the drums/guitar, Ruby plays the keyboard and my sister and I sing.

Our band met in high school when JJ and Ruby moved to L.A from Glasgow, Scotland. We decided to join a Glee Club and that's when we discovered that we all had talent, so we decided to form a band and sing R&B/Pop music.

I have many hopes for the band such as ; to make an album, have sold out concerts and produce merchandise. I would also like for the band to go on it's first world tour very soon.
