

### Biography

My name is Jay Jay and I was born in Glasgow where I grew up. At the age of twelve I had to move to California because life was not going good for me and I went to a new High School where I have been for the last 4 years. My Mum, Dad and sisters had to start new jobs in America and have been much happier. Life has been going good for me now and I have started a band and I am the drummer in a band called Explosion.

My hobbies are snowboarding and brake-dancing. I go to snowboarding club on Tuesdays and brake-dancing club on Friday. I have being learning new tricks on the snowboard, such as backflips, side flips and corkscrews. I like to go brake-dancing club in clubs at night with my friends. I also like music such as rap, r & b and pop.

Our band first met in High school in 3rd year, when we were in music class. We all could play a different instrument and so we thought why not make a band. We also are in the Glee club that run through every lunch time.

We have hopes to make lots of c.d.s, sell t-shirts and have our music downloaded onto an I-pods. we also hope to many concerts and have loads of fans.
