

PAPER CUT

My name is Ricardo Lopez. I am 20 years old. My mum and dad died when I was a baby and I only see my brother now because my sister lives with my auntie back home in Brazil. Now I live in Los Angeles, California, all alone in a lovely house, with a really large room and I have a swimming pool and a really wide TV.

I currently work as a musician for Warner Bros playing drums on some of their movie soundtracks. In my spare time I enjoy playing drums and listing to music and all kinds of sports, but my favorite sports are football, tennis and badminton.

My biggest musical influence is the Black Eye Peas because I like their style and also their songs.

I am in a band called 'Papercut'. In the band I play the drums, Rafael Shade is the lead guitar. Also in the band are Jennifer Hart and Eva Ramheart. Eva is the bass guitar and Jennifer is the lead singer and we are all working well together and already feeling like a proper band. We got together at a concert in Hawaii.

I hope that in the future my band do well and we finish our first album and one day we become the best rock band in the world.
