

# Peas On Earth

My name is Avril Star-Rose . My stage name is Starry-Eyed. I am aged 18 . I was born in L.A with my mum Kendal Rose aged 36 . I was born on the 31<sup>st</sup> December 1996 (at the bells). I live with my two fish Rose and Star, I hope to get a dog soon. I have my own flat in L.A. I am a vet and I have a particular interest in working with orangutans, I spend a long time in Borneo each year working at the sanctuary.

My hobbies are dancing, partying and chilling out.

I am in a band called Peas on Earth. In our band we have Jenny Bloom (Jupiter), who plays the drums and sings. We also have William Rockfire (Lil Will), who plays the guitar. I am the lead singer and also play the guitar. My style is rock chick.

I hope that our band gets a number one single or album . I would really like to go to France, Italy, London, Hawaii, Paris and New York ! I hope that we have the chance to make a charity single for the orangutans to raise money.
