

voice and her great style. Alicia Keys has inspired me as a woman. I am part of a band called Red Hot Ice, I am back up vocal and piano in the band, Also my stage name is RaehX.

When I moved to Australia, I made friends with Daysha Vontrella Comswa and as friends we went on a holiday to Madrid and we met Ksomi Kasuti and Dex Wilde and later that night we formed a band. Included in my band there is Daysha Vontrella Comswa - Triple M. Dex Wilde Interest. Ksomi Kasuti - Martian.

My hopes for the band are that we are listening to each other and co-operating with each other and to become big role models. As it is very early days yet for the band we are trying to make sure that our first single of the year and get career kicked off and go on tour and put music into travel.
